**Mentor Mentee Report**  
**SESSION 2019-20**

The Department of Botany, Sant Gadge Baba Amravati University is actively involved in the scheme of mentor-mentee, under this scheme the faculty members of the Department are acting as mentor for the students, by this unique scheme the students are free to share their day-to-day problems as well as their strengths with their mentor, by the identifications of students weakness and strengths, it is crucial for the teachers to decide the roadmap for overall development of students and guide, motivate and inspire them for acquiring soft skills for achieving the success.

**Objectives of the scheme**

- To establish a caring and supportive ecosystem between students and teachers by which teachers can understand the hidden problems faced by the students.
- To make a continuous academic monitoring of students for technical as well as soft skill enhancement.
- To motivate, inspire and guide the mentees for achieving overall development and academic growth of the students.

## **Mentor –Mentee Programme**

“Mentor -Mentee” Programme was introduced with a view to advance the educational and personal growth of students. Each mentor teacher establishes a strong and caring bond with his/her mentee students and counsels their allotted Mentee

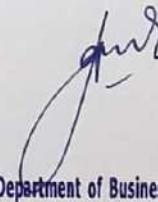

1. Every student has his own strengths and weaknesses. Mentor is a guardian to his students and he/she knows and understands his students personally.
2. In a class, weak students are identified by the mentor and teaching in a class taking more efforts to upgrade and improve these students.
3. Mentor acknowledges and addresses the problems faced by the students like poor academic performance, problems related to infrastructural facilities, and personal problems. The Mentor and also motivate and guide the students.
4. “Mentor Mentee” programme is for continuous academic monitoring of students for managerial as well as soft skill enhancement which results in improved employability.
5. Continuous monitoring of academic performance of students including their attendance and performance in internal exams as well as providing a support system to guide and motivate the students.
6. To identify and solve personal and health related problems of the students

### **Mentor Program Report**

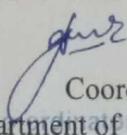

In the Department of Commerce, Sant Gadge Baba Amravati University, mentor and mentee program takes place every year. In an academic year, both the classes first year as well as second year are taken into consideration. All these students are divided among the professors for this purpose. Mentoring students specially in the current scenario is very crucial. Where everyday students receive combination of opportunities and threats, it is proper mentoring who will help them to identify the best opportunity and grab them while gain strength to fight with threats.

Mentors of our department are always willing to share their skills, knowledge and expertise. They act as a role model for the mentee. This mentoring program of the department is not purely academic in nature, here students also learn to handle behavioural or self esteem issues. Under the guidance of skilled professionals, students learn to live a meaningful life that will create a lasting impact on their family as well as society. A good mentor will always try to inculcate among students a positive attitude towards everything in life.

Under this program, various counselling sessions are arranged for the students with the respective professors. Sessions are held individually as well as in groups. Wherever required one to one mentoring session are conducted and group mentoring sessions also take place. These are done with the intention to solve students' problems other than academic by discussing and conversing. Group discussions are also conducted on relevant topics for students to overcome the difficulty of not being able to speak freely in public.

Role model activity is conducted in which students were asked to play the role of their counter part to understand the situation and sufferings of the other party. In such a way, they realise the things by experiencing the conditions of the other person. Various such activities are conducted every year at departmental level to guide, support and motivate the students.

The most important purpose is to encourage the development and growth of the students. It is to ensure that students are moving ahead and in the right direction. Mentoring will assist students in empowering themselves for their personal development. It will also enhance and develop the perspective on various things. Boosting confidence among students is also one of the aims of mentor. Thus, mentoring students today will help us to achieve a better tomorrow.

**Mentorship Program : Annual Report**

The mentoring system strengthens the bond between teachers and learners, enriching the learning environment. Personal counseling of the student is done through the student mentor teacher system. The department has implemented this scheme from the year 2019-20. The department has two teachers each teacher has been allotted to the single program i.e BLISC and MLISC. If the student has any complaints or suggestions they report to the mentor teacher. The record is maintained by the mentor teacher of the student problems and suggestions provided by the students and in any certain situations, mentor teachers call parents and interact with them about the progress of the students or any permission related to the library tour in case of girl students.

During personal counseling students have been given all information about government free ships scholarship scheme, earn while learn scheme, curricular and extracurricular activities, examination pattern, library tour to visit local public, college and university libraries in India and their academic performance. Mentor teachers also extend personal counseling about career, personnel health, social and educational problems and also the student's provide suggestions and try to incorporate for the development of the department.
