PROGRESS REPORT OF 12th PLAN PERIOD (20015-2016)

NET COACHING CLASSES

FOR SC, ST, OBC (NON-CREAMY LAYER) & MINORITIES COMMUNITIES CANDIDATES

1. OBJECTIVE

The main objective of the scheme is to prepare Scheduled Castes, Scheduled Tribes and Minority Communities candidates for appearing in NET or SET, so that, sufficient number of candidates becomes available for selection as Lecturers in the University system.

2. INTRODUCTION

Scheduled Castes and Scheduled Tribes have been identified as the most depressed and oppressed groups of Indian society constituting about 15 and 7.5 percent, respectively, of the total Indian population. In order to safeguard their interests in independent democratic India, specific provisions have been made to improve the status of these people socially and educationally, so that, they can take their rightful place in the mainstream of the society. Despite all constitutional safeguards and measures initiated by the UGC, the position of reservation for Scheduled Castes, Scheduled Tribes, OBC (Non-creamy layer) and Minorities is far below the expected level in the Universities even after more than 60 years of Independence. The Commission has been contributing towards social equity and socioeconomic mobility of the under-privileged sections of the society through various special schemes. The well being and the development of the Minorities are important indicators of the strength and success of a democratic society. Democracy being the rule of the majority in numbers, it is necessary to protect and foster the interests and needs of the minority groups, not only in terms of their numbers but also in a preferential manner, with a certain amount of reverse discrimination. Sometimes rights and privileges which are not available to the majority have to be given to the minority groups to bring them up to a viable level of development. The UGC has decided to make special allocations for promoting higher education for the Minorities during the Eleventh Five Year Plan. The Government of India has declared Muslims, Christians, Sikhs, Buddhists and Parses as religious Minorities. Altogether they constitute about 19% of the Indian population. Their educational development is generally low with wide variations in different states and levels of education. The Commission has been providing separate assistance to the universities (i) for remedial coaching at UG and PG level (ii) coaching for entry into services (iii) coaching for NET to Scheduled Castes, Scheduled Tribes and Minority candidates. The Commission has decided to merge this scheme with the General Developmental Assistance scheme of the Universities and assistance for this component will be over and above the ceiling of General Developmental Assistance.

PROGRESS REPORT OF 12th PLAN PERIOD (20016-2017)

NET COACHING CLASSES

FOR SC, ST, OBC (NON-CREAMY LAYER) & MINORITIES COMMUNITIES CANDIDATES

1. OBJECTIVE

The main objective of the scheme is to prepare Scheduled Castes, Scheduled Tribes and Minority Communities candidates for appearing in NET or SET, so that, sufficient number of candidates becomes available for selection as Lecturers in the University system.

2. INTRODUCTION

Scheduled Castes and Scheduled Tribes have been identified as the most depressed and oppressed groups of Indian society constituting about 15 and 7.5 percent, respectively, of the total Indian population. In order to safeguard their interests in independent democratic India, specific provisions have been made to improve the status of these people socially and educationally, so that, they can take their rightful place in the mainstream of the society. Despite all constitutional safeguards and measures initiated by the UGC, the position of reservation for Scheduled Castes, Scheduled Tribes, OBC (Non-creamy layer) and Minorities is far below the expected level in the Universities even after more than 60 years of Independence. The Commission has been contributing towards social equity and socioeconomic mobility of the under-privileged sections of the society through various special schemes. The well being and the development of the Minorities are important indicators of the strength and success of a democratic society. Democracy being the rule of the majority in numbers, it is necessary to protect and foster the interests and needs of the minority groups, not only in terms of their numbers but also in a preferential manner, with a certain amount of reverse discrimination. Sometimes rights and privileges which are not available to the majority have to be given to the minority groups to bring them up to a viable level of development. The UGC has decided to make special allocations for promoting higher education for the Minorities during the Eleventh Five Year Plan. The Government of India has declared Muslims, Christians, Sikhs, Buddhists and Parses as religious Minorities. Altogether they constitute about 19% of the Indian population. Their educational development is generally low with wide variations in different states and levels of education. The Commission has been providing separate assistance to the universities (i) for remedial coaching at UG and PG level (ii) coaching for entry into services (iii) coaching for NET to Scheduled Castes, Scheduled Tribes and Minority candidates. The Commission has decided to merge this scheme with the General Developmental Assistance scheme of the Universities and assistance for this component will be over and above the ceiling of General Developmental Assistance.
