It is proud privilege to place on record that Sant Gadge Baba Amravati University Amravati is accredited with 'A' Grade (CGPA, 3.07) by NAAC, Bangalore during third cycle of Reaccreditation. It was established on 1st May 1983 and renamed in 2005 as "Sant Gadge Baba Amravati University" in honour of the great social reformer Sant Gadge Baba. He disseminated the significance of cleanliness, education and environmental awareness for the well being of mankind. The lush-green campus is spread over 473 acres of land with 22 Post Graduate Teaching Departments and administrative blocks.

The Botany Department was established in 1990. It provides the facilities for Post Graduate and Research students. It has completed 25 years successfully with excellence in academics and research imparting knowledge from basics in Botany to frontline areas in plant sciences. It offers specializations in Plant Tissue Culture, Reproductive Biology of Angiosperms and Bioinformatics. The Department has recognition in India and abroad as it has organised two International and three National conferences in which many academicians and researchers had participated.

About the Conference:

The 20th National Conference of Aerobiology (NCIAS), 2018 on "Airborne Pollen and Spores: Assessment, Impact and Scope" and Annual General Meeting of Indian Aerobiological Society will be held from 29 to 31 January, 2018. The conference focus on the issues related to human health like pollen allergy, pollen epidemics, airborne diseases related to pollen/ spores etc. Disseminating the knowledge from scientists to common man is one of the corner stone that will be laid down through this conference. The organizing committee intends to organize invited talks, plenary sessions by eminent persons related to focal themes. The oral and poster sessions would offer opportunity to present scientific work. There will be a key note address, Dr. T. Sreeramulu oration lecture, Prof. Chanda Memorial Lecture and P.H. Gregory award session. The conference will provide platform for scientific interaction with renowned stalwarts in the field of Aerobiology.

Abstract Submission:

Abstracts based on the focal themes of conference for Oral/Poster presentations are invited in 300 words typed in MS word with 12 Font in Times New Roman. Author presenting the paper should be underlined. The title of the paper should be in all caps. The abstracts in soft and hard copy along with DD should reach the Joint-organising secretary on or before 30/10/2017 on the email botconfncias2018@gmail.com

Focal Themes:

- Aerospora monitoring, quantification and assessment.
- Morphodiversity of pollen and spores.
- Identification and characterization of aeroallergens/ pollen-spore allergens.
- Pollen/ spore allergy and human health.
- Plant diseases forecasting.
- Aerobio-pollution and climate change.
- Effect of aerosols on agriculture, environment and heritage and other materials.
- Airborne diseases epidemics with special reference to pollen spores.
- Role of computer science, bioinformatics and statistics in aerobiology.
- Pollen dispersal and pollination biology
- Melissopalynology
- Nanotechnology and Pollen / Spores studies.
